DETAILED ACTION

1. This communication is responsive to the applicant's amendment dated 02/10/2006.

Claim Rejections - 35 USC § 112, 2nd Paragraph

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 5-11 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 5, 7, 9 and 11, it is unclear what is being considered as "a pickup" or "a pick up" (line 4 per claim 11, it appears should be 'pickup') as recited in the claim. The disclosure only briefly mentioned that "a pickup (not shown) of the CD player is returned from a currently reading position to a previously address position" (see page 14 of the specification), but without any specific detail on what it is and how it is being functioned as claimed.

Art Unit: 2615

The following art rejections are applied from what is best understood of the claims in view of the 112 first and second paragraph problems listed above.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 5-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kutaragi (US-5,257,254).

Regarding claims 5-11, Kutaragi in Figs. 8-9 of the 4th embodiment discloses the claimed invention. A disc player system or a disc player is element 1. A mixing apparatus is element 28. A pickup is the optical pickup head of the disc player 1 (col. 17, line 61-62). And the specific control of memory address position for the data according to control signal outputted from the mixing apparatus is discussed in col. 15, line 49-col. 19, line 8. A user would have inherently and previously designates the address position of audio data stored

in the memory that having specifics such as minute, second and sector in the disc apparatus as disclosed by Kutaragi.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
